

Albany 19th August. 1822.

Sir

Since my return to Town on Thursday last I have called at The Artificial Stone Manufactory to see the Stags for your Preston Gateway. They are modelled and will be ready to put in the Kilm this week, the firing process will take about ten days, after which the legs, which will be cast in lead, will be affix'd by copper bars, and the whole will be put together complete, when I will take another opportunity of calling to see them, and get them forwarded with as little delay as possible.

I have the pleasure to say they appear'd to be very well modell'd, and from the mode adopted for putting them together I do not apprehend any accident, and I think you will approve the effect. I trust to your having heard of my short visit at Withington, I was however enabled to leave Mr. St. M^r. Glegg a plan for their new Dining Room, and some suggestions

which I hope he will find useful, if he proceeds with
the repairs of his House - I am afraid I rather alarm'd Mr. P.
as to the probable expence, tho' I trust he will not be discouraged
from applying to me again, if he should have occasion for any
further Professional assistance -

I have according to your desire subjoin'd my account
on the other side - I beg my respectful compliments to
Mr. Parker. and I have the honour to be

Sir your most obed. humble Serv.

Lew. Wyatt
